Kansas	125		48	38%	987	1,065	251	791	182	23%	854	132	21

1. **HHS Protect** statistics are based on the most recent self-reported entries to the HHS Teletracking system . The Hospitals Reporting indicates the number of facilities reporting at least one data point for the day
 1a. District is based on the county where the hospital resides. NOT the patients county of residence. .
 2. **KDHE** data updated Monday, Wednesday, and Friday <https://www.coronavirus.kdheks.gov/160/COVID-19-in-Kansas> - Regions are determined by County. Cases are in patients county of residents.
 3. A case is defined by a person who tested positive for the novel coronavirus (SARs-CoV-s), which causes Coronavirus Disease 2019 (COVID-19). Confirmed and probable cases are reported in this dashboard. A probable case is defined as a person with a) presumptive lab evidence (serology) with COVID-19 symptoms or epi-linked to a confirmed case, or b) no lab testing with COVID-19 symptoms and epi-linked to a confirmed case. - Last updated today based on statistics from KDHE for Kansas residents
 *The number of Adult Staffed ICU Beds available is derived by subtracting the reported number of Adult Staffed ICU Beds Occupied from the reported Total Adult Staffed ICU Beds. And, this includes ALL patients, not only COVID patients.
 ***Number of patients with suspected or laboratory-confirmed COVID-19 who died on the previous calendar day of reporting **in the hospital and hospital ED.**
